(iii) *re* : admission of the students in the Maharani's College, Bangalore.

ಶ್ರೀ ಎಚ್. ಎಸ್. ಸಿದ್ದಪ್ಪ.—ಸ್ವಾಮಿ, ನಾನು ನನ್ನ ಅರ್ಜಿವರಿಯ ವಿಷಯದತ್ತ ಸರ್ಕಾರದವರ ಗಮನವನ್ನು ಸೆಳೆಯುವುದಕ್ಕೆ ಇಪ್ಪುಪಡುತ್ತೇನೆ. I call the attention of the Hon. Minister for Education *re* : admission of the students in the Maharani's College, Bangalore.

† Sri A. R. BADARINARAYANA (Minister for Education).—The strength of the Maharani's College before the opening of the current academic year was over 2,000 pupils. With the admissions proposed this year, it is likely to reach a figure of over 3,000 students. Indiscriminately extending the strength of this institution would not be advisable as it becomes more and more difficult for the authorities to manage such a large number of students. Consequently, Government have already a proposal to bifurcate the existing college so that the number of students in each institution would be considerably reduced. The proposal is under active consideration.

2. Meanwhile, the hon. Member has stated that about 5,000 students are likely to be refused admission, which statement is belied by facts. As per information, 1872 students applied for the P. U. C. out of these, 892 applications were for Arts and 980 for Science. In the PUC first year there are 560 admissions this year. In the second year, 573 have been allowed to continue. In the first year of B.A. and B.Sc., 365 students have been admitted. Thus, it is clear that no efforts have been spared to admit as many students as is possible. Indiscriminate permission for admissions beyond the number already admitted would result in making the institution too unwieldy to manage.

3. Bangalore has got a large number of Junior Colleges and First Grade Colleges. For P.U.C. Course, 10 institutions were sanctioned last year, in addition to 31 composite colleges. This year, in addition to the above, six Higher Secondary Schools have been upgraded and six new Junior Colleges have been licensed. The students who have not been able to secure admission in this institution can go to any one of the other colleges where seats would be available. Hence, I would like to impress upon the House that it would not be correct for Government to give a direction to the Maharani's College, Bangalore, to admit

(SRI A. R. BADARINARAYANA)

all students who have applied for admission. This is being said only in the interest of good administration in the institution as any further increase would make the college too unwieldy.

Sri H. S. SIDDAPPA.—I have very clearly stated in my notice that the accommodation at present would suffice only at the rate of 6" per student, as it is available now. I had discussion with the Principal. She pleads that with this existing accommodation, no more admissions can be made and if more accommodation is given, she could admit. The staff is working for two shifts from morning 8 to six in the evening. Now, the private colleges are not taking any admission, except first class students. Government has failed to direct the private colleges to take admissions in respect of all classes of students. There is rush only to the Maharani's College because, the private colleges are not taking admission of students other than first class students. The Scheduled Castes students are rushing to Maharani's College, because private institutions are not taking them also. The reasons are to be investigated. Government is reimbursing the fees and giving grant; still they are refusing.

Sri H. S. SIDDAPPA.—My request is; Please direct the authorities there not to force the students to take a subject in which they have not passed. Supposing a candidate has passed with C.B.Z., she should not be forced to take H.E.P. Please issue necessary instructions and also see that at least temporary accommodation is provided, if there is no accommodation as the Principal said

Sri C. M. ARUMUGAM.—I would like to stress on one point, Madam That is, the Government should see that all girls who seek admission in the College should be given seats either in the Maharani's College or in private colleges in Bangalore, as Mr. Siddappa put it correctly. In the private colleges they conduct test before admission and they should have passed in first class and also pass this test. It is also not possible for the poor students to pay fees in the private colleges. That is the reason why there is rush in Maharani's College for Women. it is a good suggestion to bifurcate the College. Let him do it. In the meanwhile, Government should give assurance that sufficient accommodation will be provided in Bangalore, Mysore and all over the State, so as to enable all the girls who seek admission to the Colleges being admitted there.

Sri A. R. BADARINARAYANA.—Madam, As the House is aware, the situation is very explosive. There were about 2,000 pupils that were admitted last year. The total number of students was 2,000. We are trying to increase it to 3,000. So, 1,000 more will be admitted. As admitted by the hon. Member there is no accommodation. What

can be done I do not know. We have got to somehow accommodate these girls. But how to accommodate is our question. We have given a number of Junior Colleges. We will try and see how best they can be accommodated. The Malleswaram Boys' High School is also converted into a Junior College and some students can be admitted there. I think I could instruct the principal to, as far as possible, try to admit students. This situation has come all on a sudden.

MADAM SPEAKER.—The other call attention notice tabled by Sri D. B. Kalmankar will be taken up tomorrow. The House will now rise and meet tomorrow at 12 noon.

The house adjourned at Fifty five minutes past Seven of the Clock to meet again at Twelve of the Clock on Tuesday, the 11th July 1972.
